Applicants:

As you consider application to the Doctor of Audiology (AuD) program in the Department of Communication Sciences and Disorders at the University of Cincinnati, consider the following advantages of our program:

- The faculty
- The academic program
- Opportunities for earned income while a student
- Our current student body
- The clinical practicum opportunities
- An onsite and offsite hearing clinic
- The facilities available in the greater Cincinnati area
- The clinical placement of fourth year AuD students
- The success of our graduates

The following pages are intended to provide you information on these various topics. We hope that the information provided here will give you insight into the program, the clinical and research opportunities available to our students, and the successful placement of our students.

We look forward to answering any questions that you have about the program and the opportunity of meeting and working with you in the future as you pursue your academic and career goals.

The UC CSD Audiology Faculty

Our Faculty

John Greer Clark, Ph.D.
jg.clark@uc.edu

Associate Professor, Department of Communication Sciences and Disorders
Director of Audiology

Areas of Specialization: Patient and family counseling relative to hearing loss treatment; Adult audiologic rehabilitation

Academic Contributions: Serves as the Audiology Program Director and Advisor to the UC Student Academy of Audiology; teaches courses in amplification systems, practice management, counseling and rehabilitation, advises AuD and PhD students, supervises AuD capstones and PhD dissertations.

Other: Certified in Audiology and Speech-Language Pathology; Fellow of the American Speech-Language Hearing Association and the American Academy of Audiology; served on the boards of directors for the American Academy of Audiology and Ohio Academy of Audiology, as Chair of the American Board of Audiology and as President of the Academy of Rehabilitative Audiology; author of over 100 publications and more than 10 books related to hearing loss and hearing treatment including *Introduction to Audiology*, e-book and print versions, co-authored with Frederick N. Martin and *Counseling-Infused Audiologic Care* co-authored with Kristina English.

Brian R. Earl, Ph.D., CCC-A, FAAA
earlbn@uc.edu

Assistant Professor, Department of Communication Sciences and Disorders

Areas of Specialization: Auditory Electrophysiology, Auditory Neuroanatomy, Diagnostic Audiology, Hearing Aids

Academic Contributions: Teaches courses in medical audiology and diagnostic audiology, advises AuD and PhD students, and looks forward to supervising AuD capstones and PhD dissertations.

Other: Certificate of Clinical Competence in Audiology (CCC-A) from the American Speech-Language-Hearing Association; Fellow member of the American Academy of Audiology (FAAA); Member of the American Auditory Society and the Association for Research in Otolaryngology.

Research: Experiments in Dr. Earl's lab (EARLAB) are focused on developing a diagnostic test of auditory nerve survival in individuals with hearing impairment. Current experiments involve:

- Physiology recordings (auditory evoked potentials and otoacoustic emissions) in animal models of auditory nerve degeneration
- Anatomic measures of cochlear hair cells and auditory neurons using confocal microscopy

- Development of optimal stimuli for assessment of auditory nerve function with auditory evoked potentials

Peter 'Skip' Scheifele, MDr, Ph.D., LCDR USN (Ret.)
scheifpr@ucmail.uc.edu

Associate Professor in the Department of Communication Sciences and Disorders. Dr. Scheifele has taught at UC since 2007. He is also an affiliated faculty member at the Communication Sciences Department at the University of Connecticut and hold secondary appointments in the Department of Medical Education and Neuroscience in the University Of Cincinnati School Of Medicine and the Biology Department of the University of Cincinnati.

Areas of Specialization: Hearing and speech science with regard to animal translational science

Academic Contributions: Teaches courses in Neuroscience and Neurology series as well as Gross Anatomy and Physiology of the head and neck, Brain and Behavior and all physics courses relating to acoustics and hearing. He advises SLP, AuD, and PhD students, supervises undergraduate capstone, SLP Master's thesis/capstones, AuD capstones and PhD dissertations.

Other: A recipient of NSF, DOD and contract funding. He is a member of the Order of the Decibel with a presidential award for marine mammal acoustics research. He has published articles on the subject of evoked potentials in canine hearing and diagnostics, noise impacts on marine mammals and canines, and vocalization classification in animals.

The current research projects in Dr. Scheifele's lab (known as UC FETCHLAB) include:

- Auditory processing of sounds in canines, equines and marine mammals
- Canine hearing and PTSD in canine (auditory-related)
- Impact of noise from kennels and zoo/aquarium habitats on animals
- EEG, ultrasound, and MRI Neuroimaging
- Classroom acoustics and effects on learners

Katherine Russell, Au.D., CCC-A
russeke@ucmail.uc.edu

Assistant Professor, AuD Practicum Coordinator

Areas of Specialization: Pediatric Audiology, Cochlear Implants, Educational Audiology, Clinical Education and Supervision

Academic Contributions: Coordinates off campus audiology practicum rotations for all AuD student's years I-III and visits sites to monitor progress. Facilitates 4th Year Externship placement. Oversees and maintains clinical affiliation agreements between UC and all practicum sites used. Organizes and directly supervises graduate students each fall for HeadStart hearing and speech screenings in schools throughout the city. Teaches

Audiology I and II courses, organizes AuD Graduate Seminar and assists with the department's annual Supervisory Conference.

Other: Certificate of Clinical Competence in Audiology (CCC-A) from the American Speech-Language-Hearing Association. She uses collective clinical and supervisory experience in hospital and educational settings to match students with external preceptors.

Gloria Valencia, Au.D.
devaleg@ucmail.uc.edu

Assistant Professor, Audiology Clinic Director

Areas of specialization: Aural rehabilitation, Central Auditory Processing Disorders, Hearing Screening in children and adult population, and bilingual Spanish-English services.

Academic contributions: Supervise first year audiology doctoral students during their practicum at the Kenneth Donnelly Audiology clinic; supervise undergraduate capstones; coordinates and administers the auditory processing disorders program associated with the CSD hearing clinic, and committee member in AuD capstones; guest speaking on Multicultural and bilingual issues; international speaker, and many Spanish publications.

Other: Gloria came to CSD in 2009; prior to that she had more than 15 years of experience in clinical audiology. She has a special interest in people with diverse backgrounds and her bilingual skills (Spanish-English) provides her with a unique perspective to deal with monolingual and bilingual populations. Skills that were strengthened with her experience as an on call Spanish interpreter and translator. She is member of different professional associations and she is also co-owner of *Bilingual Audiology*. Gloria is a recipient of the Jean Rothenberg Award, CSD, University of Cincinnati on May 2000.

Fawen Zhang, M.D., Ph.D
zhangfe@ucmail.uc.edu

Associate Professor in the Department of Communication Sciences and Disorders. Dr. Zhang has taught at UC since 2007. She is also an affiliated faculty member at the Communication Sciences Research Center at the Cincinnati Children's Hospital Medical Center.

Areas of Specialization: Auditory Evoked Potentials and Cochlear Implants

Academic Contributions: Teaches courses in Evoked Potential series as well as Anatomy and Physiology of the Peripheral Auditory System, advises AuD and PhD students, supervises undergraduate capstone, AuD capstones, and PhD dissertations.

Other: A recipient of NIH funding. She has published more than 1 dozen articles on the subject of evoked potentials in cochlear implant users.

The current research projects in Dr. Zhang's lab include:

- Auditory cortical processing of sounds in normal hearing listeners and postlingually deafened adult cochlear implant (CI) users
- Auditory cortical plasticity induced by CI experience
- EEG Neuroimaging
- Electrically evoked compound action potential (ECAP) and electrically evoked auditory brainstem response (EABR) in CI users

Our Adjunct Faculty

Katheryn R. Bachmann, Ph.D.
Bachmakn@mail.uc.edu

Adjunct Assistant Professor in the Department of Communication Sciences and Disorders. Dr. Bachmann has taught at UC since 2005. She is also on staff in the Department of Audiology at Cincinnati Children's Hospital Medical Center.

Areas of Specialization: Vestibular Assessment; Evoked potentials; Pediatric diagnostic behavioral testing; Newborn hearing screening.

Academic Contributions: Teaches the Vestibular I and II courses as well as co-advises AuD and PhD students and serves on capstone committees.

Other: Fellow of the American Academy of Audiology and Active member of the Association for Research in Otolaryngology, Dr. Bachmann has been an invited speaker at the Academy annual convention and has presented several research posters at both ARO and AAA meetings. Dr. Bachmann has published several articles in the area of pediatric audiology, has written a book chapter on electrophysiological tests, as well as contributed to peer reviewed research articles in the areas of otoacoustic emissions, newborn hearing screening, and electronystagmography. Currently, Dr. Bachmann's research efforts are focused on contributing to the publication of normative data for pediatric tests of balance function assessment, as well as collaboration with Vanderbilt University to develop a pediatric dizziness handicap inventory.

Chelsea Blankenship, Au.D., CCC-A
bensonsc@mail.uc.edu

Graduate Teaching Assistant and Ph.D. student in the Department of Communication Sciences and Disorders.

Areas of Specialization: Electrophysiology and Cochlear Implants

Academic Contributions: Teaches the graduate Cochlear Implant Theory and Practice course as well as undergraduate Audiology I and II.

Other: Dr. Blankenship earned her Doctor of Audiology degree in June 2012 from the University of Cincinnati. She completed her 4th year Au.D. externship in St. Louis, Missouri, splitting time between Washington University's Adult Cochlear Implant Team and St. Louis Children's Hospital Pediatric Cochlear Implant Team. While completing her externship, she also worked as a research assistant in the Jill Firszt Electrophysiology Lab at Washington University. Following graduation, Dr. Blankenship worked as a pediatric cochlear implant audiologist at Ohio Valley Voices in Cincinnati, OH. She is currently working on her Ph.D. in Communication Sciences and Disorders with a focus of Auditory Electrophysiology. Her research interests include cochlear implants, temporal processing, and auditory rehabilitation. She has presented several research posters at ARO, AAA, and OSLHA conventions as well as contributed to peer reviewed research articles in the areas of electrophysiology and cochlear implants.

Lisa Hunter, Ph.D.
Lisa.hunter@cchmc.org

Scientific Director, Division of Audiology, Cincinnati Children's Hospital Medical Center and Associate Professor of Otolaryngology, UC College of Medicine and adjunct Associate Professor of Communication Sciences and Disorders

Areas of Specialization: Newborn hearing screening, otitis media, acoustic immittance and wideband reflectance, and central auditory processing disorders.

Academic Contributions: Teaches the pediatric diagnostics course, co-advises AuD and PhD students, and is the audiology faculty member of the LEND program.

Other: Dr. Hunter is a pediatric audiologist, specializing in diagnostic measures and education/accreditation issues in audiology. She conducts research on newborn hearing screening and diagnosis, funded by the National Institutes of Health and the Centers for Disease Control. . She has completed several research grants in Otitis Media and Hearing Loss in Children. She has authored over 60 articles, books and chapters, and has given over 100 national and international presentations. She is chair of the of the Accreditation Commission for Audiology Education as well as past member of the Board of Directors of the American Academy of Audiology.

Robert W. Keith, Ph.D.
Robert.keith@uc.edu

Professor Emeritus, Department of Otolaryngology-Head and Neck Surgery University of Cincinnati College of Medicine and Adjunct Professor, Communication Sciences and Disorders

Areas of Specialization: Diagnostic Audiology, Vestibular Disorders, Auditory Processing Disorders

Academic Contributions: Past Director of Audiology. Currently retired yet continues to serve as the liaison for the audiology programs services with the Red Bird Mission in Appalachia.

Other: Fellow of the American Speech Language Hearing Association. Past Editor in Chief of the journal Ear and Hearing. A founding member of the American Academy of Audiology he served as chair of several committees including Honors, Board Certification and was President of the Academy. He is the author of over 100 articles published in peer reviewed journals, multiple chapters, edited 4 books, and is the author of *SCAN:3 Tests of Auditory Processing Disorders* designed for children, adolescents, and adults and several other tests for auditory processing disorders.

The Academic Program

The following are the educational goals of the Au.D. program. The full time program is designed to prepare students to:

1. meet the entry level professional standards set by the American Speech-Language-Hearing Association and the American Academy of Audiology as well as state licensure in Ohio and other states;
2. become competent audiologists across the range of roles and responsibilities within the scope of practice of audiologists, including diagnostic and rehabilitative audiology across the entire age range;
3. develop the scientific basis, research and critical thinking skills and experience in transitioning research to practice to become audiologists who use evidence based practice;
4. develop the lifelong learning skills to adapt to changes in the discipline and profession.

For an overview of the AuD program including the basic requirements of the program go to <http://cahs.uc.edu/departments/csd/general/about.aspx> where you will find the Handbook for Doctor of Audiology (AuD) under the tab “student resources” that provides complete details of our academic program, clinical practice, and doctoral capstone project. The same page includes course descriptions, schedules, and curriculum grids.

In addition you can go to <http://sites.google.com/site/saacincinnati> to learn more about the Cincinnati Chapter of the Student Academy of Audiology. The SAA is the national student organization of the American Academy of Audiology that serves as a collective voice for students and advances the rights, interests, and welfare of students pursuing careers in audiology. Our students have been successful in obtaining positions within the national SAA in several capacities, where they work for the best interests of audiology students nationwide. For more information about SAA you can go to:

<http://www.audiology.org/education/students/SAA>

On Campus Hearing Clinic

The onsite Hearing Clinic at the University of Cincinnati provides screening, diagnostic evaluations and hearing aid dispensing for children and adults with hearing loss and auditory processing disorders. Audiological services include audiological evaluation; hearing aid evaluation, dispensing, and orientation; hearing protection; assistive listening devices and hearing screening and aural rehabilitation services.

These services are provided by graduate students who are supervised by faculty members of the Department of Communication Sciences and Disorders (CSD) who hold a doctoral degree in Audiology, the Certificate of Clinical Competence of the American Speech-Language-Hearing Association, and licensure by the Ohio Board of Speech Pathology and Audiology.

Audiological Services Include

- Assistive Listening Devices
- Audiological Evaluation
- Auditory Processing Evaluations
- Hearing Aid Dispensing and Orientation
- Hearing Aid Evaluation
- Hearing Protection (earplugs, swim molds)
- Hearing Screening

Auditory Processing Disorders Evaluation

A team of a speech pathologist and audiologist provide diagnostic information and recommendations pertaining to auditory processing and language disorders in school-aged children, adolescents and adults. A comprehensive evaluation includes a team and family conference. Recommendations regarding academic accommodations and treatment, college placement, and career choices will be addressed.

Hearing Loss Management

Following comprehensive hearing evaluation, hearing loss management includes examination of the impact of diminished hearing on one's vocation, family, and social outlets. Appropriate treatment is determined by the patient in conjunction with doctoral student clinicians working under direct faculty supervision and may include the selection and fitting of appropriate hearing aid amplification, recommendation of hearing assistance technologies (television or telephone amplifiers, signal alerting devices for alarm clocks, doorbells, smoke detectors, etc.), or instruction on effective communication strategies for those with hearing loss and their family members.

Off Campus Hearing Clinic:

The department provides hearing health care to Bridgeway Pointe, an assisted living center affiliated with the University of Cincinnati on the Drake Center Campus. This program is run by AuD students who are supervised by Dr. Gloria Valencia who is a member of the UC audiology faculty -

An additional experience is regular attendance at the Red Bird Mission in Appalachian regions of

southeastern Kentucky. Students attending that clinic provide a wide range of services ranging from hearing testing to hearing aid fitting with follow-up that includes hearing aid adjustment and minor repairs. The Red Bird Mission is further described in the following website: <http://rbmission.org/>

Opportunities at the University of Cincinnati Department of Communication Sciences and Disorders for AuD students to support their academic goals financially

This list includes multiple opportunities both inside the department and across the university and community.

1. Bahmann award (x4) is an opportunity to work closely with our audiology clinic held at French East. The award is usually offered for a two year period depending on funding. Applicants to the AuD program can apply for the Bahmann award that and is usually assigned to students with outstanding academic records along with factors including other credentials and accomplishments, and financial need.
2. Keith Audiology Research Endowment Fund (x2). Established in 2010 the Endowment was able to fund two student scholarships, one first and one second year AuD student for the 2014-2015 academic year and will fund two entering students in the 2015-2016 academic year.
3. Kenneth Donnelly scholarship – Established to honor the memory of Professor Donnelly, this scholarship typically funds one student per year.
4. Occasionally, the Veterans Administration hospital provides semester-long stipend traineeships in Cincinnati and Dayton. Funding is uncertain from year to year.
5. CSD clinic and administration clerking jobs, approximately \$12 / hour. Funding and availability of positions is uncertain from year to year.
6. Some students are hired as audiology techs hired by local hospitals to administer hearing tests to newborn babies under the universal hearing screening guidelines established by the state of Ohio.
7. Yates Foundation for under-represented minority students: Check UC online, the graduate school. Search for Yates Foundation.
8. National Institute of Occupational Safety and Health (NIOSH): This world class research institute is located in Cincinnati. It is the venue for audiology capstone students, and occasionally has research opportunities for students that pay a stipend.

Practicum Sites Available To Our Students

The city of Cincinnati and the surrounding area provide many opportunities for obtaining clinical experiences while on practicum assignments. The experiences range from newborn hearing screening to geriatric care, and include the entire range of activities related to the scope of practice of audiologists. Activities range from screening through diagnostic evaluation of hearing and balance disorders to cochlear implants and hearing aid dispensing and counseling. The age of patients available to you during clinical practicum include infants through geriatric years.

The existence of several prestigious organizations allows our students outstanding practicum, research activities, and potential 4th Year Externship opportunities. Notable among them are:

The University of Cincinnati Medical Center (UC Health): A full diagnostic audiology program working with prominent neurotologists, a hearing aid dispensing practice and complete vestibular and electrophysiological assessment center across multiple sites. Also offers unique electroneuronography.

The Cincinnati Children's Hospital Medical Center: Consistently ranked in the top 3 pediatric hospitals in the nation, this strong program employs roughly 30 audiologists in multiple clinics throughout the city, including an outstanding cochlear implant team and sophisticated vestibular testing center. For more information about CCHMC audiology go to: <http://www.cincinnatichildrens.org/service/a/audiology/default/>

Dayton Children's Hospital Medical Center: Another major pediatric medical center with multiple sites, including a renovated satellite clinic. Services include newborn screenings, audiometric evaluation, electrophysiology, hearing aids, cochlear implants, and osseointegrated devices.

The Cincinnati and Dayton Veterans Affairs Medical Center: A rare affiliation with multiple VA facilities. Outstanding opportunities for full diagnostic audiology, advanced hearing aid technology, tinnitus treatment, vestibular assessment/rehabilitation, and experience serving veterans of all ages. For more information about the VAMC in Cincinnati go to: <http://www.cincinnati.va.gov/services/specialty.asp>

The National Institute of Occupational Safety and Health (NIOSH): A worldwide-known organization active in background research upon which the Department of Labor develops legislation for the occupational safety and health of our nation's work force. For more information about NIOSH go to: <http://www.cdc.gov/NIOSH/>

Private Sector: Affiliations include multiple otolaryngology, amplification dispensing, and rehabilitative clinics. A large group of private clinics of both otolaryngology and dispensing audiology practices that provide students opportunities to experience life in the private sector.

Educational Audiology: Affiliations include Cincinnati Public, Dayton Public, Ohio Valley Voices, St. Rita's, and Lexington Hearing and Speech Center.

University of Cincinnati
Other Clinical Opportunities*

Adena Regional Medical Center – Chillicothe, OH
Ascent Audiology and Hearing
Bluegrass Hearing Clinic – Lexington, KY
Bridgeway Pointe (assisted living)
Cincinnati Children’s Hospital Medical Center (CCHMC) – main and satellite locations
Cincinnati Hearing and Tinnitus (CHAT)
**Cincinnati Public Schools
Clark Audiology (private practice with Real Ear) – Middletown, OH
Dayton Children’s Hospital Medical Center – Dayton, OH and Springboro, OH
**Dayton Public Schools
ENT & Allergy Specialists – Edgewood, KY
Far Hills Hearing and Balance – Centerville, OH
Good Samaritan Hospital
Hamilton County Head Start Screening Programs – multiple schools, 1st year experience
Hearing Consultants
Hearing Services of Kenwood
Hearing Speech and Deaf Center of Cincinnati – 2 offices
Hill Hear Better (private practice with Real Ear)
HopeFest (health fair)
**Hopewell Center/Ohio Region 14 SST – Hillsboro, OH
**Lexington Hearing and Speech Center – Lexington, OH
Luhn Hearing Care – Erlanger, KY
Mexico Service Trip – Cancun, MX
Montgomery ENT Center – Wilmington, OH
**Ohio Valley Voices (OVV) – Loveland, OH
Red Bird Mission (service trip) – Beverly, KY
Special Olympics Hearing Screenings – Columbus, OH
St. Elizabeth Medical Center – Edgewood, KY
**St. Rita School for the Deaf
Tri-Health / Group Health – 7 offices
UC Health Medical Center – 3 offices
UC Hearing Clinic – 1st year experience
Veterans Affairs Medical Center – Cincinnati, OH (stipend traineeship may be available)
Veterans Affairs Medical Center – Chillicothe, OH (possible summer)
Veterans Administration Medical Center – Dayton, OH (stipend traineeship may be available)
Veterans Affairs Medical Center – Middletown, OH CBOC (Dayton VAMC)

*This is not an exhaustive list.

****School Site – fulfills Educational Certification requirement**

Note: Several students have elected to go full-time out of state during the summer between years 2-3. Some locations include: St. Louis Children’s Hospital, Children’s Healthcare of Atlanta, Durham VAMC, Research Internships, and University of Hawai’i Speech Clinic.

University of Cincinnati
Past 4th Year Externship/Residency Placements

The following is a list of previous placements for students in their 4th Year Externship. You will note that our students have obtained placements in a wide variety of settings with professional experiences that include the entire scope of practice of working audiologists.

- 2017-2018** Bluegrass Hearing Clinic (Richmond, KY)
Cincinnati Children's Hospital Medical Center – Pediatric Hospital (Cincinnati, OH)
Group Health, Tri Health Physician Partners (Cincinnati, OH)
Lexington Hearing & Speech Center (Lexington, KY)
New England Center for Hearing Rehab (Hampton, CT)
South Hills ENT/ Medical HA Center (Bethel Park, PA)
UC Health, Otolaryngology/UC Health Audiology and Hearing Aids (Cincinnati, OH)
VA Medical Center (Cincinnati, OH)
VA Medical Center (Dayton, OH)
Walter Reed Army Medical Center (Washington, DC)
- 2016-2017** Children's Healthcare of Atlanta (CHOA) – Pediatric Hospital (Atlanta, GA)
Cincinnati Hearing and Tinnitus (CHAT) – Private Practice (Cincinnati, OH)
Dayton Children's Hospital Medical Center – Pediatric Hospital (Dayton, OH)
Ohio ENT – Private Practice ENT (Columbus, OH)
VA Medical Center – (Dayton, OH)
VA Medical Center – (Durham, NC)
VA Medical Center – (Phoenix, AZ)
Walter Reed Army Medical Center – Military Audiology (Washington DC)
- 2015-2016** Connecticut Children's Hospital Medical Center – Pediatric Hospital (Hartford, CT)
Dayton Children's Hospital Medical Center – Pediatric Hospital (Dayton, OH)
Hear USA Private – Private Practice (Chicago, IL)
Hill Hear Better – Private Practice (Cincinnati, OH)
University Health ENT Physicians – University ENT (Cincinnati, OH)
VA Medical Center – (Bay Pines, FL)
VA Medical Center – (Lexington, KY)
VA Medical Center – (Mountain Home, TN)
VA Medical Center – (Pittsburgh, PA)
- 2014-2015** Bluegrass Hearing Center – Private Practice (Richmond, KY)
Lexington Clinic – Medical Group (Lexington, KY)
Miracle Ear Beall Inc. Cincinnati
My Hearing Center – Private Practice (Rock Springs, WY)
VA Medical Center – (Augusta, ME)
VA Medical Center – (Bay Pines, FL)
- 2013-2014** Bluegrass Hearing Clinic – Private Practice (Lexington, KY)
Cincinnati Children's Hospital Medical Center – Pediatric Hospital (Cincinnati, OH)
Lafayette Hearing Center – Private Practice (Lafayette, IN)
Nationwide Children's Hospital – Pediatric Hospital (Columbus, OH)
Sonus Arlington Hearing Center – Private Practice (Arlington, VA)
University Health ENT Physicians – University ENT (Cincinnati, OH)
University Hospitals Case Medical Center – University Hospital (Cleveland, OH)
VA Medical Center – (Bay Pines, FL)
VA Medical Center – (Cincinnati, OH)
VA Medical Center – (Dayton, OH)
VA Medical Center – (Pittsburgh, PA)
- 2012-2013** Bluegrass Hearing Clinic – Private Practice (Lexington, KY)
Cincinnati Children's Hospital Medical Center – Pediatric Hospital (Cincinnati, OH)

Dayton Public Schools – School System (Dayton, OH)
Mailman Center for Children’s Development Disorders – Pediatric Clinic (Miami, FL)
Nationwide Children’s Hospital – Pediatric Hospital (Columbus, OH)
San Diego Hearing Center – Private Practice (San Diego, CA)
VA Medical Center – (Bay Pines, FL)
VA Medical Center – (Dayton, OH)
VA Medical Center – (San Diego, CA)

2011-2012 Bluegrass Hearing Center – Private Practice (Richmond, KY)
Boston Medical Center – Medical Center (Boston, MA)
Cincinnati Children’s Hospital Medical Center – Pediatric Hospital (Cincinnati, OH)
Dayton Children’s Hospital Medical Center – Pediatric Hospital (Dayton, OH)
St. Louis Children’s Hospital – Pediatric Hospital (St. Louis, MO)
Texas ENT Specialists – Private Practice ENT (Houston, TX)
University Health ENT Physicians – University ENT (Cincinnati, OH)
VA Medical Center – (Cincinnati, OH)
Washington University Medical School – University Hospital (St. Louis, MO)

2010-2011 Community Services of Northern Kentucky – Non-Profit (Florence, KY)
Devore ENT – Private Practice ENT (Dayton, OH)
South Dayton Hearing Aids and Audiology – Private Practice (Dayton, OH)
University Health ENT Physicians – University ENT (Cincinnati, OH)
VA Medical Center – (Cincinnati, OH)
Walter Reed Army Medical Center – Military Audiology (Washington DC)

2009-2010 Allied Physicians – Private Practice Medical Office (Ft. Wayne, IN)
Audiology Center of St. Peters – Private Practice (St. Peters, MO)
Audiological Services of San Francisco – Private Practice (San Francisco, CA)
Cincinnati Children’s Hospital Medical Center – Pediatric Hospital (Cincinnati, OH)
Queen City ENT – Private Practice ENT (Cincinnati, OH)
University Health ENT Physicians – University ENT (Cincinnati, OH)
VA Medical Center – (Cincinnati, OH)
VA Medical Center – (Dayton, OH) 2 *students*
VA Medical Center – (Phoenix, AZ)
VA Medical Center – (San Diego, CA)

2008-2009 Cincinnati Head and Neck Surgeons – Private Practice ENT (Cincinnati, OH)
Community Services of Northern Kentucky – Non-Profit (Florence, KY)
Montgomery ENT Center – Private Practice ENT (Cincinnati, OH)
Queen City ENT – Private Practice ENT (Cincinnati, OH)
VA Medical Center – (Cincinnati, OH)
VA Medical Center – (Dayton, OH) 2 *students*
VA Medical Center – (Nashville, TN)

2007-2008 Cincinnati Children’s Hospital Medical Center – Pediatric Hospital (Cincinnati, OH)
Community Services of Northern Kentucky – Non-Profit (Florence, KY)
Montgomery ENT Center – Private Practice ENT (Cincinnati, OH)
Southwest Ohio ENT Specialists – Private Practice ENT (Dayton, OH)
Tallahassee ENT – Private Practice ENT (Tallahassee, FL)
University Health ENT Physicians – University ENT (Cincinnati, OH)
VA Medical Center – (Dayton, OH) 2 *students*

2006-2007 Arizona Ear Center – Private Practice ENT (Phoenix, AZ)
Southwest Ohio ENT Specialists – Private Practice ENT (Dayton, OH)
Queen City ENT – Private Practice ENT (Cincinnati, OH)
VA Medical Center – (Pittsburgh, PA)
