

Advanced Medical Imaging Technology Program Outcomes

Programs in:

Magnetic Resonance Imaging, Nuclear Medicine Technology, and General Sonography

*General Sonography was placed on hold August 2012 – no data respectively

Enrollment (Academic Year)

2014-2015	58
2013-2014	112
2012-2013	138
2011-2012	137
2010-2011	124

Program Retention/Completion Rate- Professional Curriculum

(graduates/ initial enrollment)

2014-2015	100% (14/14)
2013-2014	93% (14/15)
2012-2013	100% (15/15)
2011-2012	89% (17/19)
2010-2011	95% (18/19)

National Board Examination 1st Attempt Pass Rates

2014-2015

Magnetic Resonance Imaging – 100% (National average 81.8% pass rate)

Nuclear Medicine Technology – 93% (National average 87% pass rate)

2013-2014

Magnetic Resonance Imaging – 100% (National average 85.3% pass rate)

Nuclear Medicine Technology – 100% (National average 87.62% pass rate)

2012-2013

Magnetic Resonance Imaging – 100% (National average 82.6% pass rate)

Nuclear Medicine Technology – 100% (National average 88.2% pass rate)

2011-2012

Magnetic Resonance Imaging – 93.3% (National average 87.7% pass rate)

Nuclear Medicine Technology – (National average 88.2% pass rate)

2010-2011

Magnetic Resonance Imaging 90% (National average 87.4% pass rate)

Nuclear Medicine Technology 100% (National average 91.4% pass rate)

General Sonography

Abdomen 100% (National average 67% pass rate)

OB/GYN 100% (National average 78% pass rate)

SONO Principles 100% (National average 75% pass rate)

Employment Rate (within 6 months of graduation)

2014-2015

100% (15/15) of graduates employed in medical imaging

Prior to graduation:

# Employed in:	Magnetic Resonance Imaging	12
# Employed in:	Nuclear Medicine Technology	1
# Employed in:	Imaging Research	1
# Employed in:	CT	1
# Students seeking employment:		0

2013-2014

78.6% (11/14) of graduates employed in medical imaging

# Employed in:	Magnetic Resonance Imaging	9
# Employed in:	Nuclear Medicine Technology	1
# Employed in:	Imaging Research	1
# Employed in:	Different field than major	3
# Students seeking employment:		2

2012-2013

80% (12/15) of graduates employed in medical imaging

# Employed in:	Magnetic Resonance Imaging	8
# Employed in:	Nuclear Medicine Technology	4
# Employed in:	Sonography	1
# Employed in:	Different field than major	3
Continuing Education:	Graduate or professional school	3
# Students seeking employment:		3

2011-2012

83% (19/23) of graduates employed in medical imaging

# Employed in:	Magnetic Resonance Imaging	10
# Employed in:	Nuclear Medicine Technology	4
# Employed in:	Sonography	5
# Employed in:	Different field than major	3
Continuing Education:	Graduate or professional school	1
# Students seeking employment:		3

2010-2011

72% (13/18) of graduates employed in medical imaging

# Employed in:	Magnetic Resonance Imaging	3
# Employed in:	Nuclear Medicine Technology	3
# Employed in:	Sonography	3
# Employed in:	PET/CT	1
# Employed in:	Computed Tomography	1
# Employed in:	Different field than major	5
Continuing Education:	Graduate or professional school	4
# Students seeking employment:		1
